My Success Story

NEA: Rebecca
Wooley

I Diana Harper have learned many many things on nutrition education. I learned that food safety is not only important to me but also my children, and church members. Healthy eating benefits me in many ways.

I learned how to shop carefully in seeing that my family did not get sick.

I learned how salt doesn't have to be in my food all the time, and how dehydrated apples made a great snack for me.

I learned how to read labels and be more alert as to what is in my food. And how the food guide pyramid is important to a healthy diet.

To whom it may concern,

11/05/02

Mrs. Bernke is my nutrition teacher. I have learned alot more from taking the class. I learned to shop for groceries better and found easier and faster ways to cook quick meals that are nutritional to our bodies. I learned to read the labels on boxes & canned goods. The class also helped me with which foods had iron in them and also helped me to eat right while I was pregnant. !!

Thank you

Angela Lindsey !!

Success Story

Buys low fat cookies. Likes cheese. Drinks water all the time. Peels the fat off the chicken and bakes the chicken. Eats wheat bread. Trims the fat off pork chops and don't fry pork chops. Eats baked pot and mashed pot. Eats a lot of rice. Eat an orange about once a day and a apple. Peaches I eat them. Runs water over frozen meat to thaw out. Buys boneless Chicken breast filets. Started using a grocery list when shopping.

To whom it may concern,

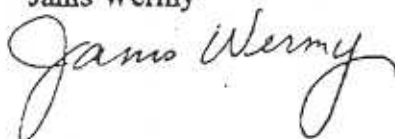

20 June 2002

I, Janis Wermy, have been on the program with nutritionist Bernice Melvin. While on the program I have learned how to look at the labels of food to determine how much fat grams, sugars etc. Also, to buy the right kinds of food for my family. I have also learned more about recipes. She has showed me how to cook faster and easier for my family that is always on the go.

Bernice has been a great person and has a wonderful personality. She is also fun to be around. Bernice offered her assistance in such a way to be very patient person and is very important person to keep on board. The food pyramid program is such an excellent program for families such as mine.

I continue to cook and look for more ideas on how to improve my families diet. We are healthier now and look forward for more in future programs like Bernice's. I have a nine-year-old daughter and a twelve-year-old son that requires a lot of shopping for my picky eaters. I thank you again Mrs. Melvin for your program and what it has done for people such as me.

Sincerely,
Janis Wermy

A handwritten signature in cursive script that reads "Janis Wermy". The signature is written in dark ink and is positioned below the typed name.

Dear Mrs. Melvin,

June 20, 2000

I have learned how to cook
meat & cheese with wine.

Romaine Tosses with bacon bits.

Boiled eggs & toast.

Cakes.....

The most favorite things I liked.

Before I was very picky eater now I
love my veggies & meat.

My mother shops with me so I
could learn line her how to cook healthier.

I am so grateful for coming to our
home. We will miss you But I know
you're still in our prayers.

Thank you for your time

Sincerely

Tara Wernke

Since my enrollment on Oct. 12, 2001 my life has taken a turn for the best. Mortique Kieren showed me & taught me about managing my finance through grocery shopping and necessities. This enables me to save and move into my own place. It also enables me to bring my children up in a safe and healthy environment. I appreciate the help and guidance this program has provided for me & my family.

Sincerely

Trocha Braswell

G-2202

I have learned to put meat in the refrigerator to thaw the day before I need it, instead of leaving it that day.

I also look at labels a lot more than I used to and I use a lot of different seasonings instead of salt. I appreciate Rebecca's help.

Thank you

Mary Calhoun

To Whom It May Concern:

The purpose for this letter is to let you know that I enjoyed the food program.

I found the flip charts to be an effective tool in visual learning. The handouts were informative, interesting, and easy to comprehend. My favorite one was on food storage on products like eggs, mayonnaise, etc.

What I learned was a variety of things that has helped me change my eating habits.

A few examples are to not drink a 44 oz. Pepsi every day. It not only gets costly, but it adds on a lot of extra calories. I also learned how to read and determine if foods are healthy according to the labels.

The recipes that I received were not only good, but inexpensive to make. My families favorite was the Mexican Casserole.

Again, Thank You for allowing Elizabeth Smith to come to my house. She is a friendly and caring person.

Sincerely,

Jennifer L. Kellogg
